

Safety Data Sheet

acc. to OSHA HCS

Printing date 12/05/2015

Version 2

Reviewed on 12/05/2015

1 Identification

Product identifier

Sheet Code: 273

Trade name: Cystografin (30%) and Cystografin Dilute (18%)

Chemical Name:

For active, D-Glucitol, 1-deoxy-1-(methylamino)-3,5-diacetamido-2,4,6-triiodobenzoate (salt)

Synonyms:

For active, Diatrizoate Meglumine injection USP 30%, Diatrizoate Meglumine injection USP 18%.

How Supplied:

Cystografin (100mL in 200mL bottle and 300mL in 300mL bottle). Cystografin Dilute (300mL in 300mL bottle).

Relevant identified uses of the substance or mixture and uses advised against

We recommend that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact your sales or technical service representative.

Chemical Family: None provided.

Molecular Formula: C₁₁H₉I₃N₂O₄.C₇H₁₇NO₅

CAS Number: Diatrizoate meglumine: 131-49-7

Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Bracco Diagnostics Inc.

P.O. Box 5225

Princeton, NJ 08543

Emergency telephone number:

EMERGENCY CONTACT:

Health: 1-800-257-5181

U.S. Transport - Chemtrec: 1-800-424-9300

International Transport - Chemtrec: 1-703-527-3887

Emergency Overview:

Clear colorless to pale yellow sterile aqueous solution. Non-combustible.

See Health Effects and Toxicology sections for additional information.

2 Hazard(s) identification

Classification of the substance or mixture

The product is not classified according to the Globally Harmonized System (GHS).

Effects of Overexposure - Routes of Entry:

Inhalation:

Under normal conditions, this material is handled in closed vials and exposure to this material by inhalation is not expected to occur.

However, in a situation where the liquid would be aerosolized, there may be potential for inhalation.

The extent of systemic absorption of the material after inhalation is not known.

Skin Contact:

Exposure may occur via skin contact if gloves and protective clothing are not worn.

The extent of systemic absorption of the material after skin contact is not known.

Ingestion:

Ingestion of large quantities of this material in an occupational setting would not be expected to occur.

Ingestion of trace amounts of the material might occur if the material contacts hands and hands are not washed prior to eating, drinking or smoking. Diatrizoate meglumine is poorly absorbed from the gastrointestinal tract.

Additional Information:

Information pertaining to particular dangers for man and environment:

Negative Effects on the Health: See also Sections 11

Negative Effects on the Environment: See also Section 12

NFPA ratings (scale 0 - 4)

Health = 0

Fire = 0

Reactivity = 0

HMIS-ratings (scale 0 - 4)

Health = 0

Fire = 0

Reactivity = 0

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

3 Composition/information on ingredients

Chemical characterization: Substances

Active Ingredient:

CAS: 131-49-7	Diatrizoate Meglumine
EINECS: 205-024-7	
RTECS: LZ4315000	

Impurities and stabilising additives:

CAS: 139-33-3	disodium dihydrogenethylenediaminetetraacetate	 Acute Tox. 3, H301
EINECS: 205-358-3		

Chemical characterization: Mixtures

Description: Mixture: consisting of the following components.

Additional information: *Cystografin Dilute **Cystografin

4 First-aid measures

Description of first aid measures

General information: No special measures required.

After Inhalation:

Remove from exposure and move to fresh air immediately.

If not breathing, give artificial respiration.

If breathing is difficult, give oxygen.

Call a doctor immediately.

After Skin Contact:

Remove contaminated clothing.

Wash skin with plenty of water for 5 minutes.

Seek medical attention if irritation (redness, itching or swelling) develops or persists.

After Eye Contact:

Wash with running water for several minutes holding the eyelids open.

If any symptoms of irritation develop and / or persist, consult your doctor.

After Swallowing:

Call a doctor immediately.

Induce vomiting in case of ingestion of a significant dose only if the person is conscious and not with convulsion.

Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed See also Section 2 and 11.

Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Means of Specific and Immediate Treatment to Keep at the Workplace: No special measures required.

Note to physicians: None.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents: In case of fire, flood with Water

For safety reasons unsuitable extinguishing agents: Unknown.

Special hazards arising from the substance or mixture See also Section 10.

Hazardous Combustion Products:

Hydrogen Iodide, Iodine (red-brown gas)

(Contd. on page 4)

Nitrogen Oxides (N_xO_y)
Iodine Compounds

Additional Information: Not Available

Advice for Firefighters

Evacuate personnel to an upwind direction, remove unneeded material and cool container(s) with water from a maximum distance.

Move container from fire area if you can do it without risk.

Protective Equipment:

Firefighters should wear adequate personal protective equipment with protection of respiratory tract (self-contained breathing apparatus) (SCBA).

Wear flame and chemicals resistant clothing, boots and gloves (see Section 8).

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

²Wear protective equipment appropriate to the circumstances (see Section 8)

Environmental precautions: No special measures required.

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, vermiculite) or other non combustible absorbent material.

Place spilt material in an appropriate container for disposal.

The spill area should be ventilated and decontaminated after material is collected.

Reference to other sections

See Section 7 for information on Safe Handling.

See Section 8 for information on Personal Protection Equipment.

See Section 13 for Disposal Information.

See Section 12 for Ecological Information.

7 Handling and storage

Precautions for Safe Handling

Avoid splashing of liquid product.

Avoid skin and eye contact.

Conditions for Safe Storage, including any Incompatibilities

Requirements to be met by Storerooms and Receptacles:

Store in a cool, dry place in tightly closed receptacles.

Container Requirements:

200 and 400 mL containers for 100 and 300 mL quantities of Cystografin, respectively and 300 mL containers for 200 mL quantity of Cystografin Dilute.

Storage Conditions: Store at 20-25 degrees C. Protect from light.

Information about Storage in one Common Storage Facility: Not required.

Further information about storage conditions: None.

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: No further data; see item 7.

(Contd. on page 5)

Control parameters

Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

Appropriate Technical Controls: Provide adequate aspiration / ventilation in the workplace

Additional information about Design of Technical Facilities: No further data (see Section 7).

Personal protective equipment

General Protective and Hygienic Measures:

The usual precautionary measures for handling chemicals should be followed.

Wash hands before breaks and at the end of work.

Wear protective equipment (PPE) appropriate to the circumstances.

Do not eat, drink, smoke while working.

Provide appropriate ventilation.

Breathing Equipment:

Not anticipated for normal clinical environment.

In non-routine exposure conditions, where risk assessment shows air-purifying respirators are appropriate, use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Self-contained breathing apparatus should be available for emergency use.

Protection of Hands:

Wear impervious gloves if the potential exists for dermal contact.

Material of Gloves:

Latex, Latex / Nitrile or Nitrile Gloves.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

The glove material has to be impermeable and resistant to the product/ the substance/ the mixture.

Penetration Time of Glove Material:

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye Protection:

Wear safety glasses (ANSI Z87.1)

Body Protection: Normal working clothes.

Limitation and Supervision of Exposure into the Environment: See also Section 7.

Additional Information about Design of Technical Systems: No further data; see Section 7.

9 Physical and chemical properties

Information on basic physical and chemical properties

General Information

Appearance:

Form: Liquid
Color: Colorless - Pale Yellow

Odor: Undistinguishable
Odour threshold: Not determined.

pH-value: 7.1 - 7.3

Flash point: Not applicable.

Flammability (solid, gaseous): Not applicable.

Ignition temperature:

Decomposition temperature: Not determined.

Auto igniting: Product is not selfigniting.

Danger of explosion: Product does not present an explosion hazard.

Flammability Limits:

Lower: Not Determined.
Upper: Not Determined.

Density: Not determined.

Relative density
Cystografin (30%): 1.162
Cystografin Dilute (18%): 1.009

Vapour density Not determined.

Solubility in / Miscibility with Water: Fully miscible.

Partition coefficient (n-octanol/water): Not determined.

Viscosity:

Dynamic: Not determined.
Kinematic: Not determined.
Water: 60.0 %

Other information No further relevant information available.

10 Stability and reactivity

Reactivity: There are not particular dangerous reactions with other substances in normal conditions of use.

Chemical stability: Stable under normal conditions.

Possibility of hazardous reactions: No dangerous reactions known.

Conditions to avoid: No further relevant information available.

Incompatible materials: No further relevant information available.

Hazardous decomposition products: No further relevant information available (See Section 5)

11 Toxicological information

Information on toxicological effects

Acute toxicity:

Toxicological Information for Active Ingredients:

LD/LC50 values that are relevant for classification:

131-49-7 Diatrizoate Meglumine

LD50 ip	44504 mg/kg (rat)
LD50 iv	21200 mg/kg (Mouse)
	14565 mg/kg (rat)

Primary irritant effect:

By Inhalation: Inhaling small doses of aerosolized material would not be expected to result in symptoms.

By Ingestion:

Inadvertent ingestion of trace amounts of this material would not be expected to result in symptoms. Ingestion of large quantities of certain meglumine salts may result in mild laxative effects, dehydration, electrolyte disturbances, and occasionally hypersensitivity (allergic) reactions.

on the skin:

Material contains low concentration of components that are mild irritants or possible irritants. It may have potential to cause mild irritation, however, moderate or severe irritation is not expected.

on the eyes: No irritation effects reported. However, the product should be considered as a potential irritant.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction):

Sensitization:

This material may act as sensitizer (allergen) for those persons who are allergic to these formulations, Iodides, or other components in the formulation.

Germ Cell Mutagenicity: No further relevant information available

Carcinogenicity: Not Available.

Reproductive Toxicity: No further relevant information available

Aspiration Hazard: No further relevant information available

Other information (about experimental toxicology): No further relevant information available

Subacute to Chronic Toxicity: No further relevant information available

Carcinogenic categories

IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

NTP (National Toxicology Program)

None of the ingredients is listed.

OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

Additional toxicological information:

Contact with small quantities of material for short periods is not expected to result in pharmacologic or toxic effects.

Medical condition can be aggravated by exposure at this product, for the patients sensitive to Iodine

Any Eventual Delayed Effect after Prolonged Exposure:

Repeated and prolonged exposure to skin may cause skin irritation

12 Ecological information

Toxicity

Aquatic toxicity: No further relevant information available.

Persistence and degradability No further relevant information available.

Bioaccumulative potential No further relevant information available.

Mobility in soil: No further relevant information available.

General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Avoid transfer into the environment.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

Other adverse effects No further relevant information available.

Additional Information: Use according to good working practice.

13 Disposal considerations

Waste treatment methods:

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Reutilise if possible or contact a waste processors for recycling or safe disposal.

Uncleaned packagings:

Recommendation: Dispose in accordance with national, state, local or applicable country regulations.

Recommended cleansing agent: Water, if necessary with cleansing agents.
